

Product Accepted for Use

Date: November 14 2023
Company Name: StormCon Products Inc.
Product: GreenStorm-ST

This is to confirm that the Road Authority's Products Management Committee (PMC) has reviewed your submission for the above product and has determined that the product will receive an "ACCEPTED FOR USE" classification. The Road Authority (TRA) will add the following to the product profile on the public website (www.roadauthority.com).

"Product is affirmed as currently meeting the requirements of recognized specifications or standards (such as ASTM, AWWA, CSA, OPS, ULC, etc.) and/or is currently accepted for use in Ontario applications by an infrastructure owner (such as a province, state, municipality, etc.) Products accepted only for use on trial installations are not included in this category."

The "Accepted for Use" logo provides a guideline for purchasers seeking to confirm the ability of manufacturers and suppliers to provide products meeting the required standards and specifications. This acceptance is a committee decision and does not represent acceptance by any individual infrastructure owner. The use of any product will be at the discretion of the specifier (owner or owner's agent).

This acceptance does not constitute a general endorsement of the product nor provide any guarantees of performance or quality. It is incumbent upon the proponent of the product, to ensure that all quality standards and requirements are met. In addition, you are required to notify TRA of any proposed changes to the TRA product. This includes changes to the design, manufacturing process, quality control plan, materials used and manufacturing location. Any changes not conveyed to PMC could result in the withdrawal of the classification of your product.

The "Accepted for Use" status is only valid while a member is in "Good Standing" with The Road Authority and this "Product Accepted for Use letter" is valid as long as TRA membership is current annually.

Companies wishing to publicize their classification status may only refer to the decision of the PMC as:

"THIS PRODUCT HAS RECEIVED AN "ACCEPTED FOR USE" CLASSIFICATION FROM THE ROAD AUTHORITY (TRA), PRODUCTS MANAGEMENT COMMITTEE (PMC)."

Any advertising or communication other than the above is prohibited and could result in withdrawal of your classification status by PMC.

Any questions or comments should be forwarded to:
